## Summary

Hello! I'm passionate about leveraging technology to build innovative solutions that make a difference. With a background in software engineering and expertise in fullstack development, I thrive in dynamic environments where creativity meets technical excellence.

My journey in software engineering has endowed me with a solid grasp of Java, JavaScript, .NET Framework, ASP.NET MVC Core, Web API, Node.js, MySQL, and other relevant technologies. I have hands-on experience in designing, developing, and testing scalable web applications from inception to production.

As a fullstack developer, I relish the challenge of bridging the gap between front-end and back-end development, ensuring seamless user experiences and robust functionality. Whether it's crafting intuitive user interfaces or optimizing database performance, I'm committed to delivering high-quality solutions that exceed expectations.

I thrive on continuous learning and staying updated with emerging technologies and best practices in software development. I firmly believe in the power of collaboration and actively seek opportunities to work alongside talented teams to tackle complex problems and drive impactful results.

Let's connect to explore potential collaborations, share insights, and contribute to the ever-evolving world of software engineering!

## Experience

**Dotnet Developer**
BYLD Group
Feb 2023 - Present (1 year 2 months)

**Information Technology Trainee**
BYLD Group
Sep 2022 - Feb 2023 (6 months)

## Education

**Maharshi Dayanand University**
Bachelor's in Computer Application, Computer Science
Mar 2019 - Mar 2022

**AVR Public School - India**
12th CBSE Board, Science
Apr 2017 - Feb 2019

**Government P.G. College, Datia**

Master of Computer Applications - MCA, Full time

Nov 2022 - Present

## Skills

ASP.NET  •  Entity Framework  •  Web Applications  •  .NET Core  •  Express.js  •  Node.js  •  ASP.NET Web API  •  ASP.NET Core  •  Server Side Programming  •  Data Structures
